# Zagreb Travel information

## City of Zagreb

Zagreb, the capital of Croatia, ranks among the oldest cities in Central Europe, as is evident from the documents dating back to 1094, when a diocese was established in this area.

The city developed between the mountain of Medvednica and the river Sava. Its old center consists of the medieval Gradec – today the home of the Croatian Government and Parliament - and Kaptol, the seat of the Archbishop. Following the administrative unification of the two entities and the surrounding villages in the 19th century, the city experienced a surge in the construction of prestigious buildings, squares and fountains, as well as the establishment of beautiful park-woods and parks which today make it one of the greenest cities in Europe. A delight to walk through, the capital of Croatia attracts visitors with the lively atmosphere of its streets, numerous coffee shops, restaurants and shopping. If you are looking for a break on your way to, or from, a seaside tourist resort, a break that would freshen up your journey, then Zagreb is the place to come to and it is waiting for you. Welcome!
