

## Preliminary Program

**17/07/2024**

17:00-19:00h Registration and BBQ

**18/07/2024**

### **9:00-10:15h Session 1**

9:00-9:15h **Ibrahim L** “Vena cordis magna topography and its implications for equine cardiac coronary sinus catheterization”

9:15-9:30h **Partusch L** “Collagen Distribution in Equine Distal Limb Wounds”

9:30-9:45h **Dalga S** “Analysis of Cranium and Mandible of Domestic Water Buffalo (*Bos bubalis*) Using Geometric Morphometric Method”

9:45-10:00h **Korim F** “Application of Serial Sections of the Equine Tarsal Joint Area in Equine Anatomy Practice”

10:00-10:15h **Kirbaş Doğan G** “A Study on the Morphometric, Macroanatomical Structure and Arterial Vascularization of the Digestive System in New Zealand Rabbits (*Oryctolagus cuniculus* L.)”

Coffee break

### **10:45-12:00h Session 2**

10:45-11:00h **Koellmberger M** “On the difficulties of reading anatomical texts: nomenclature of plexus choroideus and tela choroidea”

11:00-11:15h **Florescu LM** “Unveiling the Colours: A Sociological Study on Improving Histology Teaching”

11:15-11:30h **Cazimir I** “Histology: Quizzes, Images, Colouring Book or a Creative Learning Method Focused on the Student Work”

11:30-11:45h **Pađen L** “Anatomy and histology knowledge in understanding physiology course – teaching difficulties”

11:45-12:00h **Pankoke S** “First experiences with teaching canine anatomy using a virtual dissection table”

**12:00-13:30h Lunch and Coffee**

### **13:30-14:45h Session 3**

13:30-13:45h **Pallaoro M** “Exploring the relationship between tissue morphology and muscle function across different rearing temperatures in pigs”

13:45-14:00h **Plewa-Kruszynska B** “The three-dimensional analysis of gustatory papillae in the wild European rabbit (*Oryctolagus cuniculus*), domestic rabbit (*Oryctolagus cuniculus f. domestica*), and the hare (*Lepus europeus*)”

14:00-14:15h **Mirra G** “Myogenesis and muscle characteristics in rainbow trout (*Oncorhynchus mykiss*) reared in a photo-electrocatalytic (PEC) recirculating aquaculture system”

14:15-14:30h **Dučić N** “Investigation of root canal morphology in dogs using the clearing technique”

15:00-17:00h Workshops

Social time

19:00-Dinner

**19/07/2024**

09:30-11:00h Posters & Coffee

**11:00-12:30h Session 4**

11:00-11:15h **Branković J** “Combined effects of heat stress, high dietary polyunsaturated fatty acids levels and antioxidant levels on tibial growth plate development in broilers”

11:15-11:30h **Aberoumandi SM** “Investigating the role of connexin-43 and its relation to Caspase-8 in human ovarian cancer”

11:30-11:45h **Rozwadowska A** “Challenges in biomechanical testing of muscular fascia – conclusions from preliminary research on canine fascia lata”

11:45-12:00h **Biebl F** “Comparison of different claw blocks under bovine claws using a mobile pressure sensor system”

12:00-12:15h **Rutland CS** “Anatomy, histology, etiology, development and functions of *Cartilago cordis*: A review”

**EAVA/YGVA update**

Social time 😊
